## **Used in German hospitals for over 70 Years, could this safe and natural painkiller *finally* bring you the relief you've been looking for?**

If you have chronic pain, you have every right to be scared.

Not only does your pain make you irritable, exhausted, and angry... it isolates you from the people you love.

And here's the real kicker: Mainstream Medicine's so-called "solution" to chronic pain just doesn't work.

*In fact, it's destroying American families.*

Ever heard of hydrocodone? Or oxycodone? Or fentanyl?

These are the synthetic pain pills behind America's "opioid crisis," the prescription drug disaster you're hearing about on 60 Minutes... and reading about in every paper in the country.

Celebrities like Tom Petty, Prince, and Carrie Fisher were all victims of the opioid crisis. And these pain drugs kill thousands more every month while drug companies reap billions.

It's not just tragic... it's sickening.

Especially because you've had a better option all along.

## Better than morphine yet safer than aspirin?

What if you could take a pill that gave you the pain-relieving rush of morphine... without the risk of addiction or death?

As crazy as it sounds, the reclusive MD and Columbia University professor Dr. Max Wolf discovered a **natural pain reliever** as strong as morphine, yet safer than aspirin.

This rare, undated photo shows the Columbia University professor who threatened Big Pharma's trillion-dollar pain pill empire.

In spite of his high-profile patients like JFK, Marilyn Monroe, Pablo Picasso, and Charlie Chaplin, Dr. Wolf's breakthrough never gained momentum... And by the early 1970s it was killed off by Big Pharma's pain pill marketing blitz.

Yet, in just a moment you'll discover how Dr. Wolf's pain breakthrough will get you off the couch and back to living an active, **happy, pain-free life**.

## Because no one REALLY understands what you're going through

Are you at your wits' end because...

- You're always turning down invitations to activities with loved ones because you're in too much pain?
- You're facing complicated surgeries because you don't have another option?

Unfortunately, our families often don't understand what it's like to live with pain... or to face losing your pride, dignity, and independence.

Unfortunately, our families often don't understand what it's like to live with pain... or to face losing your pride, dignity, and independence.

They'll never really understand what it's like to stay in bed because your joints hurt so bad. Or how helpless you feel because you can't tie your shoes, open a jar, or even button a shirt without searing pain.

Or how mainstream doctors say you only have two options: live with the pain, or risk death by popping prescription drugs.

***But now you have another choice.***

There's verified evidence proving Dr. Wolf's breakthrough pain solution is the "real McCoy" at freeing you from this endless cycle of agony... without risk of death.

## Germans Hospitals Adopt Dr. Wolf's Miracle Pain Reliever

Today, German hospitals use Dr. Wolf's discovery to treat chronic pain and inflammation. After decades of research and development, it's become a **routine treatment** for severe and chronic pain.

And in just a moment, you'll discover:

- How this **pain secret** reverses decades of chronic pain...
- How it restores youthful joints, and everyday mobility...
- Why it's safer and more effective than prescription pain pills...
- And how you can use it without a prescription or even a doctor's visit...

But first, I want to introduce myself and share my own story. You see, I was in constant pain, too. And I didn't see a way out.

### Until I tried Dr. Wolf's pain-relief secret for myself...

My name is Jesse Cannone, CFT, MFT, CPRS.

As an independent health researcher, certified fitness trainer, post-rehabilitation specialist, and best-selling author, I've dedicated my career to researching and finding the safest, most reliable alternative health solutions.

Yet, what you're about to discover is the most unexpected find I ever made.

It's so effective, European doctors have used Dr. Wolf's solution for over 70 years to treat everything from chronic pain and sports performance injuries to diseases like cancer.

Doctors found that when given in the right proportions and combination, Dr. Wolf's therapy can:

- Eliminate pain
- Reduce swelling and inflammation
- Enhance immune function
- Improve circulation
- Speed up recovery from traumatic injury
- Reduce scar formation
- Prevent serious complications after an injury

I know it **gave me relief** when I needed it the most...

You see, back when I was just 20-years old, I was fresh out of the Navy after a 6-month tour of duty in Europe and the Middle East on the aircraft carrier **USS Enterprise**.

I was young, ambitious, and ready to take on the world. But after coming home, an accident during a 12-mile run left my knee shattered.

So just as I'm starting a new career as a fitness trainer, and going to school to become a post-rehabilitation specialist, I couldn't even walk... much less workout, or train my clients.

After multiple trips to the doctor, he still couldn't find anything. My X-Rays and MRIs all came back normal. So he gave me a cortisone shot, a bottle of painkillers, and sent me on my merry way.

Right then and there I decided I was NOT going down that road.

Even though I was making less than \$40,000 a year, I was spending around \$800 a month on nutritional supplements, pain creams, and anything I could get my hands on.

And you know what? I didn't mind spending more than my monthly mortgage if it meant finding REAL relief.

Then an "accidental" discovery at the library lead me to Dr. Max Wolf.

That's when everything started to click...

## **“Switch Off” Decades of Pain in a Matter of Weeks**

Dr. Wolf discovered your body produces a specific certain type of **healing enzyme**. Evidence shows these enzymes help your body **repair** damaged joint tissue.

However, Dr. Wolf found the production of these all-important enzymes slows down after age 27 — and screeches to a halt after age 50.

And if you're missing these enzymes, your body's natural healing mechanisms shut down. That means blood and oxygen can no longer reach damaged tissue.

***Arthritis, joint pain, and lack of mobility are all linked to a lack of these enzymes circulating in your body.***

Common solutions like opiates or NSAIDs (Ibuprofen, Aspirin, etc.) do nothing to stop solve this enzyme deficiency. They only trick your brain into not feeling pain for a few hours at best.

The good news is, Dr. Wolf discovered a natural way to **reintroduce** these painkilling enzymes back into your body...

He called it **systemic multi-enzyme therapy**.

“It's so effective, you can 'switch off' decades of joint pain in a matter of weeks...”

Here's the proof.

## Could Systemic Multi-Enzyme Therapy Make Pain Pills Obsolete?

Studies show **systemic multi-enzyme therapy** works so well because these enzymes have an analgesic (pain-relieving) effect like morphine — but without the risk of addiction or death.

>> One study looked at people having oral surgery. Each patient had two separate (but comparable) procedures, one on each side of the mouth.

After one procedure, the patient received these pain-relieving enzymes.

After the second, they received a placebo.

**Patients who received the enzymes reported faster recovery with less pain and swelling.**

>> In another study, 160 women who'd had a surgical procedure while giving birth were given either enzymes for pain, or a placebo.

**After just four days, 96% of the women taking the enzymes said their pain was completely gone (i).**

>> Another study in the medical journal *Arthritis* shows a certain enzyme combination may be as effective as certain NSAIDs (like Tylenol and Advil) — and could stop the reliance on acetaminophen — in the management of chronic knee osteoarthritis (ii).

## Systemic Multi-Enzyme Therapy More Effective Than Advil or Tylenol... With No Side Effects

These studies are BIG NEWS if you're one of the millions who can't leave home without making sure you've stashed a bottle of pain pills in your car, purse, or briefcase.

The drug companies won't tell you this, but a study from the University of Rochester shows NSAIDs decrease your body's production of antibodies.

Antibodies are special proteins that help your immune system destroy viruses, bacteria, and other chemicals.

The more antibodies your body has, the easier it will be for your body to fight off disease and sickness.

Stunting your body's production of antibodies with constant NSAID use could be setting you up for disaster.

Especially since statistics show so-called “innocent” viruses and infections are a major killer of people over 65.

But not only are enzymes on par with NSAIDs when it comes to pain-relief... **but enzymes are proven to boost your immune system and help your body eliminate viruses from your body.**

But that’s not all.

> > Another landmark study showed these enzymes helped martial artists cut their recovery time in half.

After taking these enzymes the martial artists’ inflammation markers, swelling, and restriction of movement **improved by 175.7%**.

This is great news, but there’s more...

Studies also show enzyme therapy helps speed up your “recovery time” from your favorite activities whether that’s golfing, gardening or playing with your grandchildren...

So you spend less time laid up on the couch — and more time living life!

In fact, one study shows enzymes can help...

## **Cut Your Recovery Time in Half or More**

Just look at the results from another study on martial artists...

In the study, a group of 20 people was split into two groups. One group took enzymes for eight weeks before fighting. The other group got a placebo.

The results between the two groups?

*Like night and day.*

Have a look at the chart below (iii):

Symptom	Recovery Time Enzyme Group	Recovery Time Placebo Group
Hematoma	6.62 days	15.59 days
Swelling	4.25 days	9.82 days
Restriction of Movement	5.04 days	12.62 days
Inflammation	3.83 days	10.56 days
Unfit for Training	4.18 days	10.23 days
Unfit for Work	2 days	5.29 days

Plus, another 160 peer-reviewed studies prove systemic multi-enzyme therapy speeds up healing, boosts your immune system, and most importantly:

**Reduces inflammation.**

Inflammation is a hot topic right now. And for good reason. Inflammation is the reason you're in pain.

**Wipe Out Inflammation and You Wipe Out Pain**

While some inflammation — like the redness and swelling around an injury — is a healthy, natural response from your body healing system...

A 14-page TIME magazine spread revealed **chronic inflammation** is the root cause of ALL disease — including joint pain that robs millions of Americans of their independence.

Systemic multi-enzyme therapy helps control your body's inflammatory process. It reduces internal swelling, helps blood cells absorb more nutrients, and improves circulation by breaking down waste and debris.

This increases flow of oxygen and nutrients to damaged tissues. ***This means your achy joints and muscles heal faster.***

Health experts have yet to find another solution that works as well as reducing inflammation as systemic enzymes.

And doctors worldwide agree the most important thing you can do for pain-relief and avoiding diseases like cancer... is reduce chronic inflammation.

Chronic inflammation is constant, non-stop inflammation raging throughout your entire body. It serves no useful purpose.

**Our Toxic Environment Makes Pain and Inflammation Even Worse**

Studies from Harvard and the Environmental Working Group show chronic inflammation is made worse by a double-whammy of chemicals in processed foods and environmental toxins (iv v vi).

This constant bombardment of chemicals "rings" your immune system's "alarm bell" every single day. Your immune system thinks it's under attack from foreign invaders. It kickstarts your body's main healing mechanism — inflammation — into gear.

In response, your body produces too much of a “sticky” protein called ***fibrin***.

This picture taken with a scanning electron microscope shows fibrin as a white, sticky net that traps red blood cells.

Fibrin is a mesh-like web that isolates wounds.

Fibrin is a natural part of your immune system — and helpful in the right doses. But when excess inflammation makes your body to produce more fibrin than it's equipped to handle... *bad things happen*.

Excess fibrin blocks blood flow. It traps red blood cells. It prevents blood and oxygen from reaching damaged tissues.

The result?

Without blood and oxygen, your body cannot heal itself. You suffer from chronic joint pain, back pain, and arthritis.

While this is news to most Americans, German scientists have known about the “fibrin-inflammation connection” for decades.

That’s why European doctors use Dr. Wolf’s **systemic multi-enzyme therapy**.

Like a street cleaner, these enzymes make their way through your bloodstream. They wipe away excess fibrin. This “opens up” the door so blood and oxygen can reach damaged joints and tissues.

Over time, the body will repair even the most aching joint or muscle as long as you clear out the excess fibrin.

While you can’t avoid chemicals and toxins in our modern environment...

You can “build up” your body’s supply of healing enzymes that clear out excess fibrin. And you don’t need a doctor’s prescription.

## **The German Olympic Team Use Systemic Enzymes to Relieve Pain and Boost Performance**

Because of Dr. Wolf’s research, German and Austrian Olympic team trainers caught on to the painkilling power of enzymes back in 1984.

German physicians needed a solution to help hockey players recover between games. Opiate painkillers made players feel “doped up” and sluggish.

So, German scientists tested systemic multi-enzyme therapy on a random group of 100 hockey players.

The result?

Players who took systemic multi-enzymes between games recovered faster, had less swelling, and performed better than players who didn’t take the enzymes.

German doctors and players were so impressed at how well **the enzymes stopped pain**, all German athletes now receive systemic multi-enzyme therapy.

Germany and Austria ordered more than **ONE MILLION enzyme capsules for their athletes for the 1998 Winter Olympics**.

And today, the company that manufactures those enzyme capsules is an official supplier and sponsor of the German Olympic team.

Now, chances are you’re not an Olympic athlete.

But today, I’ll show you how to...

## **Replenish Your Body with Pain-Killing Enzymes**

If you’re living with chronic pain, I want you to know you have options.

Systemic multi-enzyme therapy is safe and effective but almost unheard of here in the US. And that’s tragic considering our current opioid crisis.

But you don’t have to be one of the countless millions who suffer for decades without relief.

Systemic multi-enzyme therapy is available without a prescription.

You can read more about systemic enzymes and how to get your own supply **right here**.

I set up a special website so you can get all the info you need about systemic multi-enzyme therapy **right here**.

To Your Pain-Free Life,

**Jesse Cannone, CFT, CPRS, MFT**

**The Healthy Back Institute**

**KNOCK OUT Pain By Combining The  
12 Most Powerful Pain-Fighting Ingredients!**

Just imagine if you were to combine these 12 pain-fighting ingredients. What you'd end up with is a formula much more powerful and longer lasting than traditional medications... without the side effects.

That's exactly what we've done.

After years of research and testing, we've created...

**The World's Strongest, All-Natural, 100% Safe, Pain-Relieving Supplement Which HEALS Your Body As It Soothes Away Pain!**

It's called "Heal-n-Soothe<sup>®</sup>" and it not only gives you the hearing power of proteolytic enzymes in a convenient capsule but it also hoes where no other proteolytic supplement has or will with...

**Today's Most Powerful Proteolytic Enzyme Combination:** We've combined the incredible systemic enzymes Protease AM, Protease 6.0 and Alkaline Protease... Bromelain and Papain to give you the most powerful pain fighting effects!

**No Label 'Slight of Hand':** Most supplements don't list the exact concentrations on their labels... because they want to hide the fact that they're RIPPING YOU OFF! As you'll see below... you get to see the entire label... with ALL ingredients and ALL concentrations of each ingredient — because we have nothing to hide.

**The Only Truly All-Natural Proteolytic Enzyme Formulation** — Available with no dangerous fillers or preservatives! This pain-reducing miracle was made for the pain sufferer who wants to get rid of their pain without adding mystery chemicals into their body.

**Are You Ready For Lasting Pain Relief?**

[Yes! I want to learn more about Heal-n-Soothe](#)
