79.03 Color Therapy

Color therapy, also known as chromotherapy, is often facilitated in the healing rooms of alternative health practitioners. A therapist trained in color therapy uses color to balance energy wherever our bodies are lacking, be it physical, emotional, spiritual, or mental. Some of the tools used in color therapy are gemstones, candles, wands, prisms, colored fabrics, bath treatments, and colored eye wear.

78.57 Castor Oil Packs

A castor oil pack is an external application of castor oil to the body. A piece of wool (or cotton) flannel is saturated with castor oil and applied to a specified area, with or without heat. Castor oil packs can be used to improve assimilations, eliminations, and circulation (especially of the lymphatic system) and are particularly helpful in aiding the breakup of adhesions of the lacteal glands.

77.65 Iridology

Iridology (also known as iridodiagnosis or iridiagnosis) is an alternative medicine technique whose proponents claim that patterns, colors, and other characteristics of the iris can be examined to determine information about a patient's systemic health. Practitioners match their observations to iris charts, which divide the iris into zones that correspond to specific parts of the human body. Iridologists see the eyes as "windows" into the body's state of health.

OUT-OF-RANGE BIOMARKER PROGRESS CHART

This chart shows you the order in which the biomarker Virtual Items came into range and the product Virtual Items that influenced those changes. The biomarkers at the top of the left column are the ones that came into range last, indicating they are the most intractable.
